INTERNATIONAL FRIENDSHIP EXCHANGE AND DX (INFEX) CONTEST

Saturday, 20 February 2010, 8:00 a.m. – 5:00 p.m.

BACKGROUND:

The International Friendship Exchange and DX (INFEX) Contest was conceived with the idea of commemorating the joint birthdays of Lord and Lady Baden Powell on February 22 known as Thinking Day. Girls and adults are given the chance to greet one another via the Amateur Radio. The GSP's first International Friendship Exchange and DX Contest was conducted in 1984.

The OBJECTIVES are as follows:

1. To give girls, who are ham radio enthusiasts, the opportunity to exchange ideas related to the Girl Scout Movement and Thinking Day using the Amateur Radio as communication tool.
2. To convey individual Thinking Day greetings to fellow Girl Scouts and Girl Guides from all parts of the world.
3. To encourage the girl participants to make friends on local and international grounds as part of badgework on the Challenge of World Community and Preparedness.
4. To enable the girls to exercise the knowledge and skills learned in Ham Radio training.
